My mission is to make buildings/cities **machine-readable, machine-reasonable, & machine-verifiable, with humanity in the loop** at Department of Real Estate and Construction, HKU.

Hong Kong Polytechnic University (HKPolyU)
(QS World 50th)

My research interests:

- ① BIM, CIM, DTs
- ② derivative-free optimization
- ③ 3D/4D point clouds
- ④ Construction automation & distributed
- ⑤ Urban computing

RESEARCH PROJECTS

We appreciate the funding agencies for supporting >20 projects as PI/Co-PI, about **HK\$ 24M in total**.
